- Connect with esteemed faculty members who share your interests for personalized guidance and access to university resources.
- Immerse yourself in culturally-themed activities to deepen your understanding of English-speaking cultures, enriched by university expertise.
- Enjoy recreational activities for a fun and relaxed learning experience within a vibrant university atmosphere.
- Program duration: 2 to 4 weeks.
- Maximum of 30 hours per week, combining all university-led activities.

Experience the unparalleled advantages of university immersion and unlock your English fluency in just weeks!

Innovation, Leadership and English for Business Track

In today's global business world, communication skills are key to success. Our Innovation, Leadership and English for Business program focuses on

- developing language proficiency in reading, writing, listening, and speaking, along with cross-cultural awareness and understanding of business topics like marketing and leadership.
- learning industry-specific vocabulary to confidently navigate business transactions, negotiations, and networking.
- gaining real-world communication experience through guest speakers and group projects.

Innovation, Leadership and English for Engineering Track

Engineering has transformed our world, shaping everything from modern homes and bridges to space travel, cars, and mobile technology. Engineers are the driving force behind innovation, using their expertise to tackle challenges and create exciting opportunities. They address real-world problems, ultimately enhancing the quality of life for all.

The Innovation, Leadership and English for Engineering course is designed for students interested in

- gaining a foundational understanding of engineering concepts in English such as force and motion, electricity, pumps, compressors, sound, and light waves.
- practical applications and hands-on learning, problem-solving skills and leadership abilities to make a positive impact on our world.

Enhancing Global Competence with English Language Learning and Career Development Track
